

## Cognitive Skills

# Cognitive Skills - Seafarer Information Ordering Training

## 1. Introduction

Cognitive skills are the vehicle for your cognition, which refers to the various processes of your thinking daily. Cognitive skills are the skills your brain utilizes to process stimuli. The more complex information processing is required on board, the greater the demand for seafarers with high cognitive skills.

Information ordering is the ability to follow a rule or a set of rules to obtain information correctly and arrange them

in a particular order. To use this ability, rules or instructions must exist for the person to know what the correct order of information is. This ability involves the application of specified sequences or procedures to a given situation.

This course allows you to showcase to your employers that you are being proactive and in line with the maritime industry's modern-day demands.

### Duration

Course duration: approx. 10 min.  
Course access: 2 months.  
Course Language: English.
